

OUR CAPABILITIES

Logistics and supply chain consulting for the industrial economy

About Us

For over 20 years, PLG Consulting has been advising senior executives from the world's largest shippers, transportation companies, and private equity firms to help them:

- Improve operations
- Reduce costs
- Penetrate new markets
- Mitigate risk
- Invest wisely

Our Difference

PLG Consulting brings decades of **unique, specific expertise and experience** to solve your most complex logistics and supply chain challenges. Our team of experts generally have more than twenty years of industry experience and an average of eight years of consulting background working to achieve tangible, measurable results.

PLG Consulting provides **practical, actionable insights, analysis, and solutions**. We move beyond analysis by providing honest, objective advice and support that prioritize your business goals through to implementation.

PLG Consulting provides **customized excellence** by creating unique teams with targeted expertise in specific modes, products, industries, and service capability relevant to your project. Our experts 'have walked in your shoes' and can fill knowledge or skills gaps to help you achieve success.

EXPERIENCE | EXPERTISE | EXCELLENCE

Collaborating Across the Industrial Landscape

Whatever your business objectives, PLG Consulting is ready to help. There is no substitute for direct, firsthand experience. Our veteran consultants have held senior executive roles with shippers, carriers, and service providers within a broad industry spectrum.

		
INDUSTRIES	SERVICES	MODES
